

The ADS Promise

Our promise is simple, yet powerful:

"We promise to provide an honest assessment of your security risks, whether they are minor or complex, and to deliver a solution that effectively addresses them using the best equipment at the most competitive prices. We also promise to support you and your staff once our system is implemented, whenever the need arises."

Is your inventory walking out the door?

We'll help you see it all.
*Digital Video Surveillance Solutions
for Manufacturing*

Affordable, High-Resolution CCTV Systems

What are you missing?

Billions of dollars are lost annually because of employee and intruder theft, workers' compensation fraud, non-compliance with safety and production rules, accidents and a wealth of other factors.

Digital video surveillance systems gives manufacturers the eyes they need to effectively protect inventory, reduce theft, uncover fraud and enforce safety practices.

Through the use of high-resolution cameras and digital video recorders, manufacturing personnel can easily view clear, crisp color images of all monitored areas through any Internet connection.

Video Surveillance Benefits:

- Provides an effective, budget-friendly method to improve security, increase productivity, reduce theft and operate a safer environment.
- Supplies irrefutable, crisp visual evidence in the event of a security breach or incident.
- Reduces the need for personnel to monitor key areas; allows them to focus on other core issues and initiatives.
- Decreases insurance premiums by lowering workplace safety incidents and theft and property losses.
- Assists with staff behavior modification and proactively works to prevent problems.
- Improves company profitability and pays for itself many times over.

- Video switches and controllers
- Cables
- Mounting hardware
- Installation
- Service and Support

ADS: The Quality Choice

Advanced Digital Security, Inc. (ADS) has been designing, implementing and servicing digital video surveillance systems for almost two decades. ADS offers the best security expertise, featuring over 100 years of combined experience.

Our Difference:

⇒ State-of-the-Art Equipment

Our systems feature the finest components from top manufacturers. To maximize quality and customization, we build our own DVRs using Pentium 4 processors and brand-name components from companies such as Western Digital.

⇒ Technology

ADS utilizes the most dependable platforms to ensure that your system is consistently reliable. While ADS systems usually operate on Windows XP®, we are also experienced in working with other platforms.

⇒ Experienced, Dedicated Staff

Unlike many other companies, ADS service and installation staff are background-checked company employees. To maintain the highest integrity, we never use outside contractors or third parties.

⇒ Competitive Pricing

Our experience, national buying power and strategic alliances with key manufacturers empower us to offer you the best prices in the industry. We won't be undersold.

⇒ Training

ADS is committed to teaching your staff how to make the most of your video surveillance system. We'll train your employees, ensuring they know how to properly utilize the equipment and get the most from all features.

⇒ Service and Support

Our commitment to your organization doesn't end when your installation is complete. We proactively remain in contact with you and are readily available should you ever need assistance.
