

The ADS Promise

Our promise is simple, yet powerful:

“We promise to provide an honest assessment of your security risks, whether they are minor or complex, and to deliver a solution that effectively addresses them using the best equipment at the most competitive prices. We also promise to support you and your staff once our system is implemented, whenever the need arises.”

What's protecting your hotel guests and assets?

We'll help you keep them safe.
*Digital Video Surveillance Solutions
for Hotels*

Affordable, High-Resolution CCTV Systems

Is your hotel at risk?

Hotel inventory is a prime target for theft from both internal and external threats. And that's not all — identity theft, credit card fraud, employee misconduct and other crimes are all security risks that can put your guests, staff and property in danger. Hotel management must find an effective, budget-friendly method to protect profitability and deliver the accommodations their guests expect.

Video surveillance systems give hotel staff and law enforcement personnel the eyes they need to effectively protect guests, employees, property and assets.

Video Surveillance Benefits:

- Provides an effective, budget-friendly method to improve hotel security and provide a safer environment.
- Supplies irrefutable, clear visual evidence in the event of a security breach or incident.
- Reduces the need for hotel personnel to physically monitor key areas.
- Assists with employee and guest behavior modification and proactively works to prevent problems.
- Decreases theft and property losses, resulting in lower insurance premiums.
- Provides peace of mind to guests and hotel management.
- Delivers high return on investment and increased profitability.

Watch it all with ADS

Key Hotel Monitoring Areas:

- ⇒ Entrances & exits

- CRT, flat-panel and LCD TV monitors
- Video switches and controllers
- Cables & mounting hardware
- Installation, service and support

ADS: The Quality Choice

Advanced Digital Security, Inc. (ADS) has been designing, implementing and servicing digital video surveillance systems for almost two decades. ADS offers the best security expertise, featuring over 100 years of combined experience.

Our Difference:

➤ State-of-the-Art Equipment

Our systems feature the finest components from top manufacturers. To maximize quality and customization, we build our own DVRs using Pentium 4 processors and brand-name components from companies such as Western Digital.

➤ Technology

ADS utilizes the most dependable platforms to ensure that your system is consistently reliable. While ADS systems usually operate on Windows XP®, we are also experienced in working with other platforms.

➤ Experienced, Dedicated Staff

Unlike many other companies, ADS service and installation staff are background-checked company employees. To maintain the highest integrity, we never use outside contractors or third parties.

➤ Competitive Pricing

Our experience, national buying power and strategic alliances with key manufacturers empower us to offer you the best prices in the industry. We won't be undersold.

➤ Training

ADS is committed to teaching your staff how to make the most of your video surveillance system. We'll train your employees, ensuring they know how to properly utilize the equipment and get the most from all features.

➤ Service and Support

Our commitment to your organization doesn't end when your installation is complete. We proactively remain in contact with you and are readily available should you ever need assistance.
